

Biography

Julie Godefroy, senior consultant sustainability, London (United Kingdom)

Julie Godefroy Julie is a sustainability consultant. She has a PhD in low-carbon buildings and is a chartered engineer, BREEAM Accredited Professional (AP) and WELL AP. She worked for nearly 10 years in a large consultancy firm where she was involved in a variety of built environment projects from early masterplanning through to post-occupancy evaluation, as well as policy work.

Her current projects include advisory services on the WELL Building Standard for Delos Solutions, the Tranquil City initiative which promotes tranquil spaces in urban environments, and producing new guidance on Health and Wellbeing for the Chartered Institute of Building Services Engineers (CIBSE).

She is on the advisory group for the upcoming MSc on Health, Wellbeing and Sustainable Buildings at The Bartlett, University College London, and on the National Trust's Historic Environment Group and Design Advice Forum.
